Course Purpose and Policies

I. Purpose:
The aim of this course is to examine the origins of the core values and traditions of the world’s major cultures. The course will look at Indian, Chinese, Judeo-Christian-Islamic, Greco-Roman, Latin Medieval, Sub-Saharan African traditions, and the modern scientific world-view in relation to those traditions. It will stress careful reading of primary texts as well as thoughtful written and spoken commentary on them. The general purposes of the course are to acquaint the student with the fundamentals of these great traditions and their relation to the modern world-view, as well as to strengthen the student’s reading, writing, speaking and analytical skills.

II. Basic Requirements:
Attendance - No formal record will be kept of student's attendance, but class participation will be an important element in grading. It is difficult to participate when you don’t attend. Schedule changes will also be announced in class. It is the student’s responsibility to obtain the phone numbers of classmates to get notes in case of missed classes or changed test dates.

Grading - Grades will be calculated in the following fashion:

<table>
<thead>
<tr>
<th>Component</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mid-term Exam</td>
<td>100</td>
</tr>
<tr>
<td>Site visit report</td>
<td>100</td>
</tr>
<tr>
<td>Thought Papers (2)</td>
<td>200</td>
</tr>
<tr>
<td>Quizzes (4)</td>
<td>100</td>
</tr>
<tr>
<td>Class Participation</td>
<td>100</td>
</tr>
<tr>
<td>Final Exam</td>
<td>100</td>
</tr>
<tr>
<td>Extra credit (0-30)</td>
<td>???</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>700</strong></td>
</tr>
</tbody>
</table>

Using this point total, term grades will be determined based on the following scale:
700-630 = A / 630-560 = B / 560-490 = C / 490-420 = D / 420-0 = F

III . Make-up Exams, Late Papers, Extra Credit Work
Make-up Exams - A make-up exam or quiz may be permitted at the discretion of the instructor. Documentation
of the reason given for missing the exam is expected. *A make-up exam will not raise a student’s grade however strong the performance;* it will only minimize the damage arising from the missed exam. Students should forewarn the instructor if they are likely to miss a quiz, test or exam. If an emergency results in a missed quiz or exam, students should contact the instructor the day of the exam, or as soon as possible thereafter. Failure to notify the instructor promptly will result in a points-off-the-top penalty comparable to that for late papers. In ordinary circumstances, no make-up quizzes or exams will be permitted unless the student has contacted the instructor before the next class meeting following the missed obligation.

Late Papers – If no prior arrangement to the contrary has been made between the student and instructor, the grade will be reduced 5% for each workday (M-F) a paper is late.

Extra Credit Work- Students wishing to do extra-credit work to improve their grade, or just for the sheer pleasure of it, should speak to the instructor. The amount and kind of work and the extra credit awarded are negotiable. Ordinarily, extra credit work is an additional Thought Paper, with all the usual procedures and requirements: written proposal, written approval, footnotes, annotated bibliography, etc. See [Thought-Papers: Topic Suggestions and Expectations](#) on the website. No more than 30 points will be awarded for extra credit work.

### IV. Academic Integrity

No student shall receive, attempt to receive, knowingly give or attempt to give unauthorized assistance in the preparation of any work required to be submitted for credit (including examinations, laboratory reports, essays, themes, term papers, etc.). Unless specifically authorized, the presence and/or use of electronic devices during an examination, quiz, or other class assignment is considered cheating. Engaging in any behavior that a professor prohibits as academic misconduct in the syllabus or in class discussion is cheating. When direct quotations are used, they should be indicated, and when the ideas, theories, data, figures, graphs, programs, electronic based information or illustrations of someone other than the student are incorporated into a paper or used in a project, they should be duly acknowledged. No student may submit the same, or substantially the same, paper or other assignment for credit in more than one class without the prior permission of the current professor(s).
