Learning Objectives:

HIST 1110 satisfies one of Kennesaw State University’s general education program requirements. It addresses the SOCIAL SCIENCES general education learning outcome(s). The learning outcome states: Students analyze the complexity of human behavior and how social, historical, economic, political, or spatial relationships develop, persist, or change. For more information about KSU’s General Education program requirements and associated learning outcomes, please visit http://catalog.kennesaw.edu/preview_program.php?catoid=14&poid=1248

Kennesaw State University is currently engaged in a campus-wide assessment of its general education program. The purpose is to measure student achievement with respect to faculty defined student learning outcomes. This course has been selected to participate in the process. No individually-identifiable student information will be collected as part of the assessment. Data will be reported only in aggregated form. Students should know that the data may be used for scholarly work by members of KSU faculty (but only in anonymous and aggregated form). If you are opposed to having your anonymous data used for scholarly work, you can “opt out” of this specific aspect of the process. For more information on the general education assessment process and for access to an “opt out” form, please click http://www.kennesaw.edu/gened/optoutform.html
